Forecast for Friday 15 Apr 2022

Weather: A mild but often cloudy start with some hill fog, especially across southern and western hills. Less cloud in eastern areas. Brightening up by lunchtime with sunny spells. Turning misty into the evening with low cloud developing once again.

Chance of cloud-free hill tops above 600m: 30% becoming 80% by lunchtime and then 50% into the evening.

Low cloud and visibility: Poor or very poor with nearby landmarks obscured especially in southwestern areas with cloud bases of 200-500m, gradually lifting during the morning. Good elsewhere with distant hills visible, improving by lunchtime with cloud lifting to patches with bases around 500-800m. Further low cloud will develop into Friday night, reducing visibility once again.

Meteorologist's View

Chilly under cloud at height first thing but despite that there will be moderate UV levels in any sunnier spells during the afternoon, so sun protection is recommended.
